

AWC

LANDSCAPE ARCHITECTURE + DESIGN

AUSTRALIAN WETLANDS CONSULTING

Capability Statement 2026

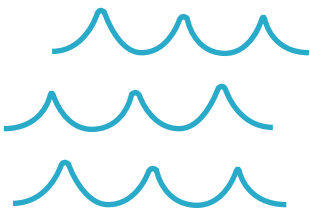

AWC acknowledges the Traditional Owners across the unceded lands, seas and skies within the Country we work. We acknowledge the ongoing connection to lands, waters and communities. We pay our respects to the people, cultures and Elders past and present.

PROFESSIONAL SERVICES

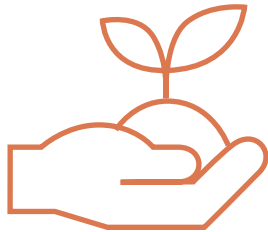

AWC is an award-winning environmental and design consulting business committed to creating better environments through sustainable and innovative design responses, with an emphasis on Nature Based Solutions.

AWC offers a range of complimentary professional services from environmental planning through to construction management. Our scientific underpinnings combined with our knowledge of government legislation results in a unique professional offering.

TEAM SYNERGY

The AWC Team is a collective of passionate individuals working together to develop innovative solutions. Our clients are provided with a high degree of professional synergy, which translates to exceptional project outcomes.

For over 32 years AWC has been providing environmental services, and has been managed by Company Director Damian McCann since 2009. Our talented multi-disciplinary team consists of aquatic and terrestrial ecologists, horticulturists, catchment managers, landscape architects and environmental project managers. We are based in Bangalow, Nambucca Heads, Sydney, Canberra and East Gippsland.

AWC LANDSCAPE ARCHITECTURE AND DESIGN - OVERVIEW

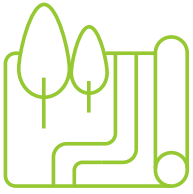

The AWC design team is focussed on contextually mindful and environmentally sensitive landscapes. Our approach to design consistently upholds the highest ecological and environmental standards whilst balancing human objectives.

Key Landscape Architectural Services:

- + Open space strategic planning
- + Master planning
- + Site analysis and site context
- + Concept, detail & construction design and documentation
- + Opportunities and constraints assessment
- + Visual Impacts Assessment (VIA)
- + Development Application (DA)
- + Construction certificate documentation
- + Rehabilitation management plans
- + River rehabilitation and bank stabilisation
- + Sediment and Erosion Control Plans (SECP)
- + Open space and public realm design
- + Trail design and bush infrastructure
- + Interpretive signage and wayfinding
- + Water Sensitive Urban Design (WSUD)
- + Nature and adventure play
- + Residential, commercial and industrial
- + Passive and active recreation design
- + Stormwater management and design

Picnic Point Seawall and Open Space Revitalisation, Picnic Point NSW.

AWC LANDSCAPE ARCHITECTURE AND DESIGN - PEOPLE

The AWC design team consists of Landscape Architects Sam Steenholdt and Benjamin Ewins, Civil Designer Rob Simmonds and Ecological Designer Nathaniel Schilter. Together the design team offer complimentary skillsets and experience in environmental, ecological, wetland and open space design.

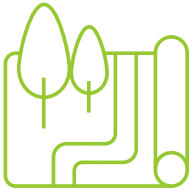

Sam Steenholdt

- + Wetland / aquatic systems design
- + Vegetation Management Plan (VMP)
- + Site analysis and site context
- + Concept, detail + construction documentation
- + Water Sensitive Urban Design (WSUD)
- + River rehabilitation and stabilisation
- + Stormwater management and design
- + Open space and stormwater integration
- + Coastal systems design
- + Bio-basin and WSUD device design
- + Erosion and sedimentation control

Benjamin Ewins

- + Strategic masterplanning
- + Community Consultation
- + Stakeholder engagement
- + Concept, detail + construction documentation
- + Visual Impacts Assessment (VIA)
- + Open space and public realm design
- + Interpretive signage and wayfinding
- + Project Management
- + Contract Administration
- + 3D Modelling and 3D visualisation
- + Plans of Management

AWC LANDSCAPE ARCHITECTURE AND DESIGN - PEOPLE

The AWC design team effectively bridges the gap between environmental / ecological science and construction / implementation, and work seamlessly with our other Service Lines to deliver workable outcomes for our clients.

Rob Simmonds

- + Civil siteworks
- + Stormwater design
- + Road design
- + Water supply
- + Sewerage
- + AutoCAD
- + 12D - Terrain modeling
- + ILSAX - storm water modeling
- + AutoTrack - vehicle/aircraft manoeuvring

Nathaniel Schilter

- + Site analysis
- + Ecological restoration design
- + Vegetation Management Plan (VMP)
- + Site analysis and site context
- + Water Sensitive Urban Design (WSUD)
- + Coastal systems design
- + AutoCAD
- + GIS Geographic Information System
- + Erosion and sedimentation control
