AUSTRALIAN WETLANDS CONSULTING

Capability Statement 2026

Sep 2026

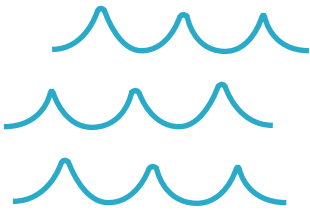

AWC acknowledges the Traditional Owners across the unceded lands, seas and skies within the Country we work. We acknowledge the ongoing connection to lands, waters and communities. We pay our respects to the people, cultures and Elders past and present.

PROFESSIONAL SERVICES

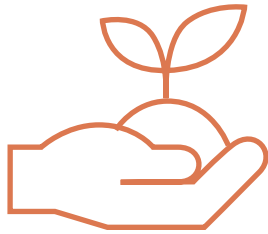

AWC is an award-winning environmental and design consulting business committed to creating better environments through sustainable and innovative design responses, with an emphasis on Nature Based Solutions.

AWC offers a range of complimentary professional services from environmental planning through to construction management. Our scientific underpinnings combined with our knowledge of government legislation results in a unique professional offering.

TEAM SYNERGY

AWC is made up of a multi-disciplinary team who work closely on small scale and larger / major projects. Our clients are provided with a high degree of professional synergy, which translates to exceptional project outcomes.

For over 32 years AWC has been providing environmental services, and has been managed by Company Director Damian McCann since 2009. Our talented multi-disciplinary team consists of aquatic and terrestrial ecologists, horticulturists, catchment managers, landscape architects and environmental project managers. We are based in Bangalow, Nambucca Heads, Sydney, Canberra and East Gippsland.

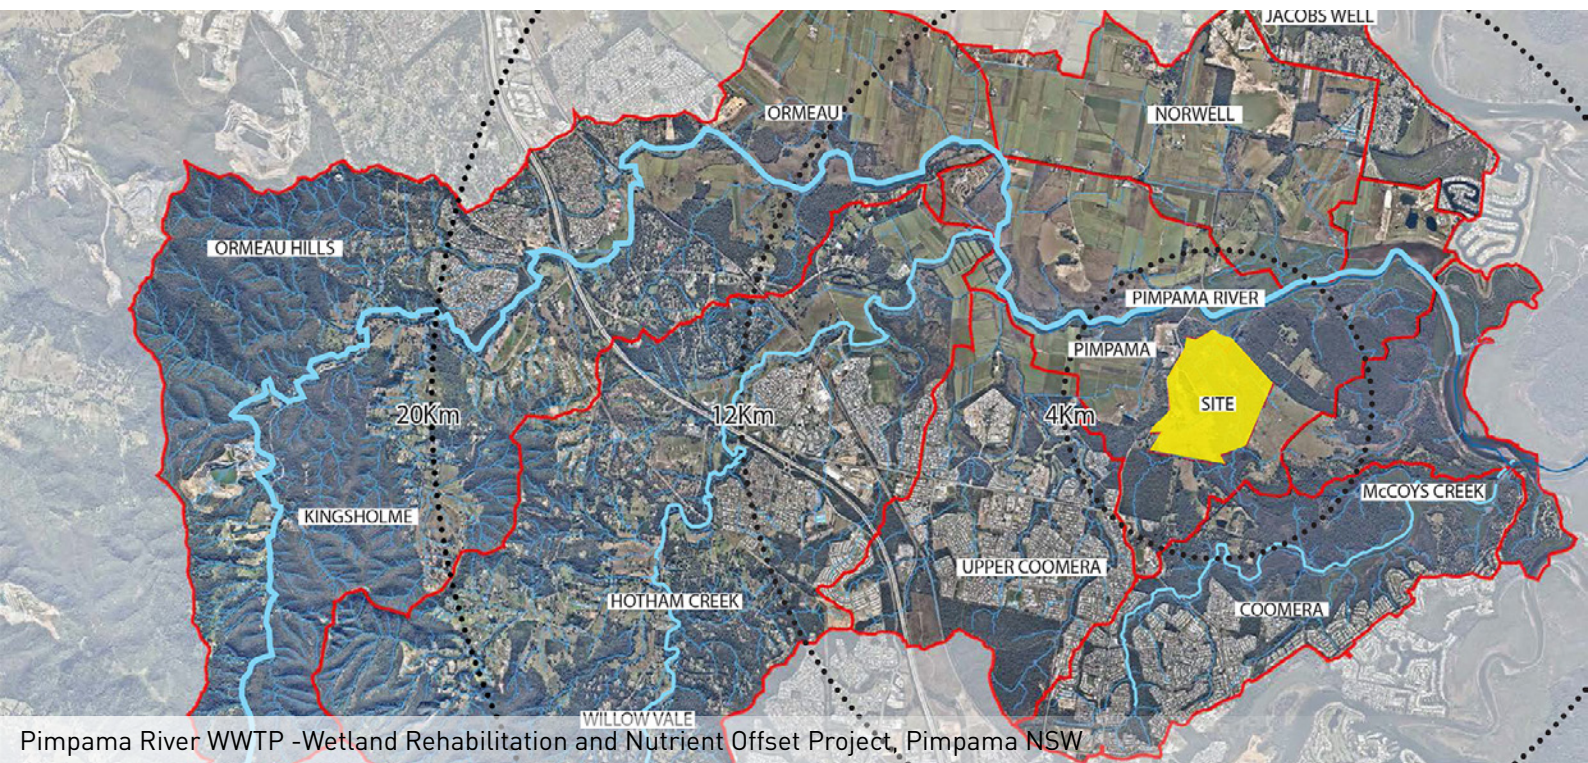

AWC ENVIRONMENTAL MANAGEMENT - OVERVIEW
